Introduction

We normally do not think about God when we think about sexual activity between a man and a woman. Why should we think about God's feelings, ideas, and hopes and dreams when a man and a woman are intimate with one another? How many women think about God when they give birth to their children?

God is part of the mechanisms that work with a man and a woman that will ultimately produce the existence of a new human life. Do we think about how God feels about the way that we hurt Him and frustrate Him by using birth control during sexual intimacy? Most of us do not give it a second thought. We believe that the only time that we should think about refraining from using birth control is when we want to have babies.

What do we get from God when we use birth control? There are sometimes when we feel satisfaction from experiencing sexual pleasure while we forget what the true purpose of sexual intimacy is about. A couple that engages in intimacy may get ten to twenty minutes of pleasure. What is the satisfaction that comes from frustrating God's efforts to create a new human life inside of His Factory of Human Life inside of a woman's body every time that they share intimacy for each other?

God is honored when a husband and wife engage in sexual intimacy with the intent to allow Him to create a new human life. God feels happiness and excitement when he can present a new human life to his or her parents on his or her first birthday. That is a productive end to the role that God plays in sexual activity when He is honored to start working with new parents to develop human life for the rest of the children's lives.

How does God feel when He sees a man and a woman working together to exchange body fluids during sexual activity rather than to try to create a new human life? God is part of the mechanisms that are supposed to give Him a chance to create a healthy human life. What happens to God when a man and a woman taunt Him by trying to get pregnant with each other and by trying not to get pregnant at the same time?

Young adults can go to the family planning isle in a department store or in a pharmacy at any given time. Birth control methods are relatively easier to use and are inexpensive in these stores. Do our schools, families, and educators want our young adults to believe that it is appropriate to engage in sexual behaviors if the two young adults can use birth control to successfully frustrate God and to successfully prevent God from being able to create a new human life out of sexual intimacy?

Our schools teach our young adults about birth control. They teach our young adults practically nothing about the role that God plays in the processes of sexual activity. Our schools do not care if our students do not know the role that God plays in the intimacy that a man and a woman share for one another.

Birth control is depressing. We have prevented God from creating tens of millions of human lives in the last thousand years. Should we care when God feels the pain of a missed chance to create a new human life when a man and a woman choose to successfully use birth control? Do couples know that God is thrilled when their intimacy leads to the creation of a new human life. Do they feel God's pain when sexual intimacy leads to nothing more than an exchange of body fluids?

Bringing Joy to God

Creating a New Human Life

God wants to work with us to bring joy and happiness to himself and to all of us by working with us to create a new human life. There is no greater joy that we can achieve in our partnership with God than to work with Him to create the existence of a new human life.

The miracle of life is something that brings joy and happiness to everyone that successfully achieves parenthood. Parents always remember a baby's first smile. Parents always remember the first words from a baby's mouth. Parents always remember a baby's first efforts to walk. It is a joy to develop a baby with God's guidance and love.

God wants a loving relationship between a husband and wife to climax with the birth of a child. He wants a loving couple to enjoy the benefits of achieving parenthood. God wants His married husbands and wives to work together to bring happiness and joy to our entire human family throughout the world. God wants all of us to feel that joy that comes from seeing a newborn baby in a nursery for the first time. God wants us to feel the happiness when we look into his or her eyes for the first time. God wants to look into a baby's eyes with a sense of happiness and accomplishment.

Parents must recognize the role that God plays in their lives that will climax with a childbirth. God is their matchmaker that will bring them together. God encourages them to become husband and wife. God puts pressure on them to achieve parenthood with each other. Finally, their loving intimacy results in the creation of a new human life. The loving intimacy between a husband and a wife which results in the happiness of a childbirth that brings joy to God and to all the members of Humanity.

Developing A New Human Life

Part of achieving parenthood is the loving joy that parents share with God as they work with God to develop their children's lives. How do we teach an infant how to talk? How do we teach an infant how to understand spoken words? How do we help an infant to gain weight? How do we teach an infant to become sociable with other children?

God works hard with the parents of an infant to help him or her to grow up. God helps the parents of an infant to hear the baby's thoughts. God tries hard to help the infant to begin to understand how to talk. God helps an infant to cry if he or she feels that his or her parents are not treating him or her properly.

God is the main force that works that works to develop an infant into a toddler. God develops a baby's body into the body of a toddler. God activates the ability of an infant's body to operate the complex operations. That means that God works with parents to teach a baby how to eat, how to drink, how to digest food, how to be toilet trained, how to sleep, and how to wake up.

God begins to build and to activate the circuits in the child's brain that allow him or her to communicate with siblings and adults. These brain circuits also help our infants and toddlers to build an individual relationship with God. Parents sometimes will take the role that God plays in role that God plays in the development of their babies and toddlers for granted.

Giving God a Reason to Exist

What is God? Why does God exist? What is the purpose of God? Why do we need to recognize the existence of God? How do we communicate with God? What happens if we choose to ignore God?

All of us as brothers and sisters that answer to our One True God are the reasons why God exists in the universe. God needs us to love Him. God needs us to help Him to create new human lives and to develop new human lives. God needs us to help Him to develop babies and toddlers to prepare them to succeed in future social relationships.

God's Universe is a factory of human and nonhuman life. God finds his reasons to exist because of the way that he creates human and nonhuman life. Part of God's reasons to exist is to create nonhuman life so that He will be able to develop and maintain all human life in the universe. We must eat fruits, vegetables, and meat products to live. We must drink water and other fluids to be able to continue to exist without dying in God's universe.

Another part of God's reasons to exist is about operating nature to create drinking water, crude oil, breathable air, and all types of other fluids, mechanisms, and materials that contribute to the ability that God must continue to support and to maintain human life in His Universe.

The most important reason why God exists in His Universe is because of His need to create intelligent human life so that he can feel the joy of loving all of us for all of eternity. His purpose in the Universe is to love the human lives that he has created, that he creates, and that he will create.

God reason to exist is that He wants to be a factory of human and nonhuman life that will find the satisfaction in sharing mutual love between Him and Us forever.

God Compensates Us for Death

Human life is eternal in the God's Universe. A human death is the end of one life. It is the start of a new life in the future. God removes us from a present life for reasons that only He can understand. God helps to help us to recover from the grief of suffering through the wrongful death of a loved one.

It is so sad that there are those within Humanity that believe that causing a wrongful death is the way to solve our problems. God cries when Humanity forces Him to tolerate the suffering of a wrongful death. Any death that is not authorized by God is a wrongful death. A wrongful death can be caused by an accident. A wrongful death can be caused by an intentional effort by someone to kill another person or persons.

Many of our brothers and sisters have been victimized by wrongful deaths. We must pray for the souls of our fallen brothers and sisters. We need to understand that God will bring them back as new human lives in the form of a baby. Our fallen brothers and sisters will have the opportunity to live their lives all over again in the form of another human life.

God heals the grief that we feel when we feel victimized by a wrongful death. God tries hard to take away the pain and suffering that we face when we remember that loving person that was once part of our lives. God must help us to try to go on with our lives so that we can continue to contribute to the joy and happiness of Humanity by working with God to do so. God wants to see us in an eternal state of happiness. God does not want us to stay in an eternal state of pain and suffering.

Enjoying Loving Intimacy

God enjoys being part the loving intimacy that a husband and wife feel for each other when they are sincere in their efforts to achieve a pregnancy and a childbirth. God makes sexual intimacy into an intense challenge for the male and female partners up until the climax of the couple's sexual intercourse.

God works with potential parents in the background. God wants to work with potential parents so that He will feel the same exhilaration and excitement that the prospective parents feel during sexual intercourse. A couple that is trying to achieve a pregnancy does not recognize the existence of God in their sexual activity more times than not.

The joy of sexual intimacy has nothing to do with a male orgasm or a female orgasm. They joy of sexual intimacy has nothing to do with an exchange of body fluids that is not intended to produce nothing more than five to ten minutes of pleasure.

The climax of sexual intercourse is one of the most intense feelings of joy and power between a prospective father and a prospective mother. The orgasm determines whether they have properly worked with God to achieve a pregnancy and a creation of a new human life. An orgasm can be a desperate effort for a couple that is trying to achieve a pregnancy.

However, God is in the background. God wants to enjoy the intimacy of a couple so that He can create a new human live through a pregnancy. Does God have an orgasm concurrently with a man and a woman that are at the climax of sexual intercourse? God really feels the power of the orgasm between the man and the woman when God, the prospective father, and the prospective mother succeed in achieving a pregnancy through the climax of love that they have for each other.

Showing Love for God and for Baby

We all need to show love for our babies and toddlers. However, we also choose to show love for God when parents share their affections with babies and toddlers daily. It is impossible to show love for a child without showing love for God. God loves parents through the love that a baby shows for his or her parents.

God wants to be part of the development of a human being. God wants to be a silent force that will show love for parents and for their children by working in the background to help all family members to develop their infants and toddlers correctly.

God wants all of us to show love for Him by assuming the role of parenthood. God loves us. God wants us to make the world a better existence by helping him to bring babies and toddlers into the world. God sincerely needs to love as many new human lives as this human community will allow him to create throughout the Universe.

We can only love two to four children at the most. God loves hundreds-of-thousands of children all over the world. God's love for our kids will help us to achieve a final salvation from our pain and suffering throughout the Family of Humanity.

We must work together to fulfill our obligation to God by attempting to achieve parenthood and to contribute to the development of children in all our communities all over the world.

How Sexual Intimacy Honors God

Sexual intimacy between a man and a woman that exists with the intent to work with God to produce a pregnancy and the creation of a new human life honors God.

God cannot achieve the creation of a new human life by Himself. He needs to work with two consenting adults, a man and a woman in a loving relationship, to attempt to achieve the goal of creating a new human life.

God loves to participate in sexual intimacy that has the goal of helping Him to presenting the miracle of a new human life to a prospective mother and a prospective father. Sexual intimacy is an expression of love that helps God to continue to exist forever with an abundance of human life that will exist all over the Universe.

God wants to participate in the loving intimacy between a man and a woman that seek to work with Him to achieve the joy and the responsibilities of parenthood by accepting a new human life from God, Our Creator. God wants a man and a woman who engage in this type of intimacy to feel overwhelmed with pleasure and positive energy. God wants foreplay and sexual intercourse to feel good for them.

Achieving a pregnancy and a childbirth is the crowning glory for a male partner and a female partner who achieved parenthood by connecting with God honors Him. God feels even more pleasure when Humanity welcomes a new human life into the world.

That is the true purpose of sexual intimacy. God feels the joy from the moment of conceiving a new human life to the point of childbirth. He is very thankful to the parents for giving Him this kind of happiness.

Parents Must Love Each Other

Is it right for parents of a newborn child to resort to using birth control after a childbirth? Should a new mother and a new father celebrate their achievement with their child or children by having sexual intercourse without the intent to create a new human life? How can God participate in sexual intimacy that frustrates and prevents His efforts to create a new human life inside of His Factory of Human Life inside of a woman?

God has problems with birth control. Birth control obstructs the female sexual organs. Birth control sterilizes a woman's body, in other words. Birth control makes the female reproductive system totally unusable. The male partner may think that having sexual intercourse with a sterilized woman feels good. However, what does that accomplish?

A mother and father can make a mistake by thinking that they can show love for each other after childbirth by abusing birth control. There are other ways that parents can show love for each other. Mutual sexual exploitation without the intent to work with God to achieve the creation of a new human life infuriates God.

Men and women still must answer to God with their sexual behaviors after childbirth. God's joy can turn to sorrow if the parents drift apart from each other because of the abuse of birth control and because of a need to engage in mutual sexual exploitation.

Bringing Sorrow to God

Rejecting Parenthood

We all have the capability and the obligation to pursue and to achieve parenthood with a partner of the opposite gender. God design's a man's sexual organs to eventually work to engage in sexual intercourse with a female's reproductive system to produce a new human life.

God designs a woman's female reproductive organs, or God's Factory of Human Life, is designed to carry a pregnancy to term after the woman has become pregnant with a male partner.

God wants all of us to contribute to His happiness by helping Him to create as many human lives as possible within His Universe. God tries to show so much love for all of us. God tries hard to help us with our problems and issues. God tries to teach us about parenthood through our personal relationships with our parents. God tries to help us to understand the benefits of achieving parenthood through the love that we share with our mothers and fathers.

Some of us choose to refuse to work with God to create a new human life. Some of us choose to reject parenthood. Some of choose to stimulate sexual activity with a partner of the same gender. Some of us have no consideration for a God that must see this every day and all over the world.

Homosexuals reject parenthood. They then imitate the process of sexual intercourse in an effort by one man to get another man pregnant or of a woman to get another woman pregnant.

God is paralyzed when these individuals not only reject parenthood but also imitate heterosexual activity to create a new human life with a partner of the same gender.

God is devastated by the tens-of-millions of lost chances that He has suffered through because of this universal effort to reject parenthood through homosexuality. Making God suffer like this can carry very painful consequences.

Sexual Promiscuity

There are some young adults and adults that are incapable of achieving a monogamous relationship that will last for an extended period. Sexual promiscuity is defined as a behavior by a man or by a woman that involves having more than three sexual partners between a three-to-five-month period.

Men that seek to exploit numerous homosexual partners without the intent to achieve parenthood can very much hurt God. Women that seek to exploit multiple homosexual partners without any intent to achieve parenthood can very much hurt God. Men and women that have sexual encounters with both men and women that they do not know without the intent to work with God to create a new human life are promiscuous.

Sexual promiscuity hurts God because the two partners sexually exploit each other. They engage in sexual activity with no intent to achieve parenthood. They taunt God to a point when God wants them to become infected with a sexually transmitted disease. They have the impression that they can have numerous partners without facing the punishment of God when they make God suffer.

Prostitution

God is very hurt when women and men sell their bodies for money on the streets. They might sell their bodies in an illegal massage parlor. They may do it in a certain apartment or in a hotel room. They may do it in a vehicle.

Nothing hurts God more than a man that pays a woman for sexual intercourse or for sexual pleasure. Men that engage in these types of behaviors infuriate God. Paying for sex is completely and totally illegal. God does not tolerate it. The Criminal Justice System of the United States does not tolerate it.

It is more than certain that anyone that pays money for sex or sexual pleasure will face punishment from God. That can include an infection of a sexually transmitted diseases. Attempting to find prostitutes can result in an arrest from sting operations. A man that seeks prostitutes can lose his marriage when his wife finds out about his lifestyle.

Call girls do not seem to have much room for a relationship with God in their lives. They do not want a lecture from God about what they are doing wrong in their lives. Call girls make God suffer. Call girls can make God very violent. God will see their clients and will want to kill whoever these clients are. God does not tolerate the sexual exploitation of a human being that possesses God's Factory of Human Life.

We must warn our young adults and adults in high schools and in our colleges that they will face very life-threatening consequences if they try to either be a call girl or to use call girls. God will not tolerate call girls or the clients that frequents call girls. Sexually transmitted diseases await call girls and the clients of call girls.

Pornography

Pornography is a falsified depiction of how a man and a woman work with God to create a new human life.

God is devastated when women that possess His Factory of Human Life could ever possibly face that type of abuse and exploitation for a one-time cash payment. This disaster is not supposed to happen to our young adult boys and our young adult girls. We are not supposed to desecrate God's Factory of Human Life in the manner that it is portrayed in these movies.

We should be developing respectful Family Planning Training for our young adults and for our adults. Our young adults and adults have nothing to learn from the portrayal of human sexuality in pornographic movies. Our students do not to make God cry because of the way that they will disintegrate if they will start to behave like adult film stars.

Pornographic stars give us the wrong idea about what sexual intercourse is really meant to achieve. We work with God to achieve a pregnancy. Pornography makes God cry. We must develop new and more humane methods to teach our young adults and adults about the right way to recognize the One True God that exists in our efforts to use sexual intercourse to work with God to create a new human life.

Pornography is a bad way to teach our young adults about the realities of human sexuality.

Sexually Transmitted Diseases

The one thing that all our young adults and adults must understand about our relationships with God is very plain and simple. We all answer to God with our sexual behaviors.

We hurt God when we decide that we will not become parents when we are young adults. God can tolerate that without causing us to get cancer.

We can hurt God by having a monogamous two-year relationship with a partner of the same gender. God can forgive us for that.

However, millions of us take God beyond the limits of His patience with our sexual behaviors. Men hurt God by trying to make numerous male partners pregnant in short amounts of time. Without an end to it. God is hurt when women make numerous efforts to impregnate many female partners without an end to it.

God can be very hurt by several factors. Homosexuals do not want to achieve parenthood at all. Secondly, they try to imitate the process of sexual intercourse and to try to impregnate a member of the same gender. They tend to have numerous partners. They ignore the fact that God is part of their lives. They also ignore the fact that God is part of their sexuality.

Two men can hurt God by trying to impregnate each other. Two women can hurt God by trying to impregnate each other. What really hurts God the most is when a man tries to impregnate numerous or even dozens of partners. He is equally angry when a woman tries to impregnate numerous or dozens of women.

An infection of a sexually transmitted disease is the final response that God will have to sexual behaviors that we will have that will hurt and that will offend Him. God tortures us for abusing our ability and our obligation to participate in the process of achieving parenthood and in trying to imitate impregnating dozens of members of the same gender.

Abortions

God creates and develops all human life. He creates all human life inside of His Factory of Human Life inside of a woman's body. Do we have the right to destroy the process of the creation and the development of an infant in God's Factory of Human Life if we feel that the result, a childbirth, is a burden for Humanity?

We should pass a law for all women to view a movie of a surgical abortion procedure and then to view a movie of a surgical childbirth procedure. Then they should be given the right to choose between a childbirth and an abortion. We think that God deserves to present that kind of graphic depiction of how inhumane an abortion can be for anyone that is considering having an abortion.

The creation of human life comes under the jurisdiction of God. What God does in His Factory of Human Life inside of a woman's body is His business. We have no right to attempt to destroy a human life that God has under construction inside of a woman's body. God has authorized the creation of a human life because He wants to bring that human life into the world to become part of Humanity. We have no right to tell God that the child that He wants to bring into Humanity is undesirable and that it faces a mandatory rejection at the hands of an abortion doctor.

Rape

Nothing makes God suffer more than a rape. What is a rape? A rape is a sexual encounter between two young adults or two adults that happens within one to four weeks after they meet each other. A rape could happen between two young adults or two adults after two days of knowing each other.

Involuntary rape happens when a woman does not consent to the sexual activity that a man wants to experience with her. The result is that the man will use violence in conjunction with forcing the woman into a sexual act. This type of violence devastates God when He sees it.

Voluntary rape is when two young adults or two adults agree to have sexual activity after knowing each other for less than two weeks. This can be an encounter between a male or female. It can be an encounter between two males. It can be an encounter between two females.

Rape deeply hurts God. God cannot tolerate the violence of rape. God cannot tolerate the hatred that two people have for each other when they rape each other. God cannot tolerate the suffering that happens after a rape. God does not know how to provide grief counseling to rape victims.

Rape is one of the leading causes of God's suffering within Humanity. God is part of our sexuality. God does not know how to be part of the sexuality of rape between two partners that hate each other.

An even greater disaster happens if both partners become infected with a sexually transmitted disease or if a partner becomes pregnant. God feels pain when He must find a way to bring a child into the world out of his or her parents' hatred instead of out of his or her parents' love. God is even more sad when they consider an abortion to compensate the pregnant female for the rape. God never wants to destroy a new human life just because the human life has come out of a rape. Rape is one of the leading causes of God's suffering within Humanity.

Birth Control

What is birth control? It is an effort by a male partner and a female partner to engage in loving intimacy while rejecting God's efforts to work with them to create a human life. Birth control is supposed to frustrate God's efforts to create a human life. Birth control is supposed to stop the creation of a new human life during loving intimacy between a man and a woman.

Using birth control is not murder. It is not an attack against God's efforts to always be successful to create human life during all episodes of sexual intimacy between a man and a woman. However, a chance to create a human life that disintegrates on God very much hurts Him. The successful use of birth control makes God think about what the world would have been like if He had defeated the couple's efforts to be successful in using birth control properly.

God wonders what the child's name would have been. God wonders what He would have designed the child to look like. God wonders the kind of loving toddler that God would have the joy of presenting to his family and friends. God wonders what that love of the missing child will have done to hurt humanity in the end. Every missing child that does not exist because of the successful use of birth control leaves a void in the for God's entire Human Family. It is hard to understand God's loss.

Under Aged Pregnancies

An under aged pregnancy is one of God's saddest tragedies. A malfunction in His Human Family leads God to believe that He is obliged to create a new human life inside of His Factory of Human Life in the body of an under aged minor. God may do it because he wants to punish the girlfriend and the boyfriend for engaging in the illegal sexual activity. God may do it because the loving intimacy that the two young adults share is so strong that He cannot fight off the energy to create a new human life during His participation in their sexual intimacy.

However, violating the sexuality of an under aged girl is a crime. Any under aged boy that causes this kind of pain and suffering for God needs to feel the punishment of God and of the criminal justice system. God does not tolerate under aged sexual activity in any way.

No parents should tolerate underaged sexual activity even if the young adult male and the young adult female try to use a successful birth control method. Parents must understand that some young adult boys are con artists that will try to finally achieve the sexual exploitation of a girlfriend until they achieve success. That is what really hurts God.

Young adult sexual activity that results in a pregnancy is a tragedy that makes God cry. How can an underaged boy and an underaged girl possibly deal with the stressors of parenthood? These are kids and young adults that are in grammar schools, high schools, and colleges. How do two young adults that have betrayed God like this explain this to God? What resources can God offer the families of these pregnant young adult boy and young adult girl?

Our kids need to know the kind of pain that God feels when He sees young adult sexual activity in our schools and in our communities so that our young adults will finally stop hurting God by ending it with under aged sexual activity and underaged pregnancies.

Under Aged Dating

Young adult boys can be real con artists. They may be looking for just one thing when they date a young girl. They may try to persuade the young adult girl to abuse a birth control device. Then they should try to convince the girl to engage in sexual activity.

Who gets angry and sad when He sees a young adult boy and a young adult girl contemplating the use of birth control and sexual activity on dates? God feels sorrow, anger, and violent all at the same time. Parents should know better than to trust their children and young adults to play it safe on dates. Young adults lie through their teeth when they say that they are engaged relationships that have no sexual intimacy. These young adults tell their parents that they have nothing to worry about.

It infuriates God to see a young adult boy making efforts to seduce, to rape, and to violate the sexuality of a young adult girl. Who gives these types of students the idea that they can get away with it? Do they get permission to behave like this from our schools? Do they get permission from their parents? The courts and law enforcement do not care when a young adult boy rapes and/or engages in sexual activity with an under aged girl?

What can God do about this problems within our schools? God feels sad that He can only dream of the day when He will be able to work with the government to finally end this suffering for everyone.

Under Aged Sexual Activity

Do parents care if a young adult son or a young adult daughter are engaged in sexual activity with a partner of the opposite gender? Do parents see the warning signs that a young adult girl is attempting to engage in the successful use of birth control? Do they know how to be responsible by making sure that the daughter is not in an intimate sexual relationship with her boyfriend?

How can parents program their kids and young adults to think that premarital and young adult sexual activity is an appropriate and tolerable by the parents of the boyfriend and the girlfriend? What makes these young adults think that God tolerates young adult sexual activity without punishing the boy and the girl that are involved in the activity?

God does not know how to function with His ability to create a new human life between a girlfriend and a boyfriend that are under the age of twenty-one years old. God does not know how to develop a new human life inside of the body of a young adult girl that is under the age of twenty-one years old. However, there are times when the sexual intimacy between the young adult boyfriend and the young adult girlfriend can be so intense that God might just give in to the pressure and might produce a pregnancy for both.

A pregnancy for a young adult girl is probably the worst punishment that she could receive from God. How can a young high school undergraduate or college undergraduate care for an infant or for a toddler? Their lives are ruined.

God severely punishes young adults that play games with sexual intimacy. God wants us to be ready to support children before we become intimate with a partner of the opposite gender. That means that we should wait for the right time to become sexually active as adults.

Sexual Activity, Drugs, and Alcohol

How does God tolerate sexual activity between a man and a woman when they are high on an illegal drug like cocaine or meth? Does God want to create a new human life inside of the body of a woman that is high on drugs while she is showing loving intimacy with her male partner? How does God really respond to sexual activity that coincides with drugs and alcohol?

The decision to create a human life in God's Factory of Human Life is God's decision to make under any circumstances. God decides whether it is worth His efforts to create a human life inside the body of a substance abuser while she is engaged in using illegal controlled substances during sexual intimacy. God does not always see that during intimacy. It hurts God when a couple feels the need to hurt themselves with illegal drugs and alcohol during sexual intimacy that is supposed to work with God to make them proud parents.

God decides based on His assessment of the situation between the boyfriend and the girlfriend. It hurts God to go through with the pregnancy or to refuse to go through with the pregnancy. He decides what is best for the couple, what is best for the couple's family, and what is best for an uncreated child that might be born into a disaster.

God wants parents that have a history of being substance abusers to be clean and sober to get Him to agree on a producing a successful pregnancy with the man and the wife.

God's Factory of Human Life

God has the potential to create a new human life in the body of every woman that walks on the face of the earth. God can only create human life inside the body of a woman after successful sexual intimacy has worked with God to produce a pregnancy and a successful childbirth.

God is sad when men and women abuse His Factory of Human Life. A man may want to have sexual activity repeatedly with a woman with no intent to work with God to create a human life. Same gendered female couples cannot fully understand that a female reproductive system is God's property. God's Factory of Human Life is not there to be toys for two female partners as a way of sexual activity with each other.

God wants His Factory of Human Life to be a key component in the way that He works with heterosexual couples to create a human life within the factory and to give childbirth after God has developed the human life into a baby.

Women that stimulate each other's reproductive organs do not accomplish anything for themselves or for God. That is not to say that their lifestyle is wrong or evil. Everyone has the right to practice their own sexual orientation. However, homosexual men and homosexual women must come to understand that they must stand in front of God and that they must justify their sexual behaviors. God is so angry at the situation with sexual activity that He creates and maintains sexually transmitted diseases.

Heterosexuals and homosexuals answer to God with their sexual activities. God will reward young adults and adults with the gift of achieving parenthood. However, God will decide what kind of role homosexuals will continue to play within Humanity. Homosexuals must understand that God will no longer tolerate abuses of their sexual behaviors in front of Him. That is why sexually transmitted diseases exist.

Single Parenthood

The wedding day of a husband and wife is one of the greatest days of their lives. They decide to live together for the rest of their lives. They announce their commitment to God to remain together until one of them dies. They agree to work with God to achieve parenthood.

However, some marriages suffer unforeseeable problems on a couple's wedding day. The problems may eventually become so unbearable that the couple can give up on the marriage and will separate.

However, some women have children out of wedlock. They become pregnant without being married. They try to raise children by themselves after their husband or boyfriend has walked out on them. They live on the edge of poverty for the rest of their lives.

Single parenting is a tragedy for our entire human family. A mother and a father need to work together to develop children and/or young adults. Children and young adults need to feel the power of both a father and a mother in their lives while they prepare for young adulthood and adulthood. God does His best to work with single parents. God tries to help the children of single parents. God suffers when a father or mother is missing from the life of a child or of a young adult.

Divorce

Nothing hurts God more than a marriage that ends in divorce. God wants to know why such a happy couple that loved each other on their wedding day has decided to call it quits.

Infidelity is one thing that can go wrong. It is against the law for a husband to commit adultery. God forbids the act of adultery.

The abuse of birth control can exhaust a woman to the point when she can no longer stop from feeling pain when she pretends to give her boyfriend or husband sexual pleasure. Married men do not understand that forcing a wife to use birth control and to have sexual activity without the intent to conceive for a prolonged period can cause the woman to just walk out on a marriage.

Substance abuse problems can make it unbearable for a wife to remain in a marriage with a man. It is so important that we should create counseling and support programs for families that are falling apart because of substance abuse problems. We need intervention programs that will help God to save marriages and to stop substance abuse from ruining a family's lives.

Couples that are contemplating carrying out a divorce should also consider the pain and suffering that their kids will have to endure when they will miss and lose one of their parents. Kids and young adults need to answer to both of their parents. Divorced parents hurt each other. They hurt their kids and they hurt God on a much higher level by giving up on their relationship.

We need to encourage husbands and wives to reach out to God so that He can help them to understand what is wrong with their marriage. God wants all marriages with children to succeed. God wants to help all husbands and wives to enjoy a successful parenthood and a successful marriage. God wants to help marriages to stay together.

What Students Should Learn

All students must understand that all human life comes from God. Sexual activity between a loving man and a loving woman provokes God to create a new human life inside of a God's Factory of Human Life inside of a woman.

All of us answer to God with our sexual behaviors. Heterosexuals answer to God with their sexual behaviors. Homosexuals answer to God with their sexual behaviors.

Sexually transmitted diseases exist because God is angry at the way that we exploit and the way that we conduct our sexual activities. God has created all of us. We never want God to be offended with our sexual activities to the point when He will choose to torture us with an infection of a sexually transmitted disease.

God expects all of us to seek to achieve parenthood. God wants all of us to share in His joy when He presents a wife and a husband with a beautiful human life immediately after childbirth. God can forgive us for not agreeing to achieve parenthood to an extent. God is hurt when anyone of us refuses to achieve parenthood. It hurts God even more when we do not show any remorse for deciding to refrain from parenthood that deeply hurts Him. We can make God happy by developing human life for him with a spouse or we can hurt him by refusing to achieve parenthood and to engage in same-gendered relationships that do not develop human life.

God the Matchmaker

Meeting Our Soulmate

God always wants to help us to meet someone that might be a candidate to be involved in a long-term relationship with us. God is mysterious when He arranges that first meeting between a man and a woman that He feels might have the potential to develop a relationship.

God helps a man to keep his anxiety under control when he meets that special someone. He must stay calm. God tries to coach him through the stress of trying to decide what to do next. God stimulates the conversation between the man and the woman. They talk as much as possible.

God forces the man to ask a simple question. He asks if she would like to exchange phone numbers. God may encourage her to say yes. They may exchange phone numbers. They may have decided to start calling each other because they still are available.

God will then work with the boyfriend and girlfriend to talk to each other over the phone. Eventually, they will start meeting each other in restaurants and in other places. God will guide them to begin a successful relationship. That is because God understands that the boyfriend's chemistry and the girlfriend's chemistry are compatible with each other. God has predicted that both are a perfect match for one another.

God's goal is to produce an engagement. It is a tough sell. The boyfriend does not know that God is stimulating the energy behind the proposal for marriage. God is working hard to get the boyfriend to propose and for the girlfriend to say yes.

God loves to do this kind of thing with couples because it eventually produces the creation of human life, a childbirth, and the development of human life. That is really God's goal.

God and Love in a Relationship

How does a young adult man impress a young adult woman? God teaches men how to do it. God teaches men how to have conversations with women. God teaches men how to flatter women. God teaches men the right way to show affection for a woman. God warns men that sexual harassment during dating can cost them their relationship.

Women have dating issues. They are afraid to date for the first time. They are afraid that their partner might hurt them. They are afraid of date rape. They are afraid that they will have a nervous breakdown on a date. They are afraid that their date will decide that she is stupid.

God tries to guide a woman that goes out on dates with a new boyfriend for the first few times. These women have a lot of anxiety. She is scared that she will eventually be hurt and rejected. She is afraid of being sexually exploited. She is afraid that she might be wasting her time.

God tries so hard to turn this chaos between this boyfriend and this girlfriend into a relationship that will eventually lead into an engagement. That will lead to marriage and to parenthood. That is what God seeks to achieve with these types of chaotic couples. God wants them to learn how to love each other until their love climaxes with the birth of their child and/or children.

Helping Men to Impress a Girlfriend

God wants to help a boyfriend in a serious relationship to be able to impress his girlfriend. That is a tough sell if he is in a school and has no income. It is easier if the boyfriend has graduated from college and has a job.

There are many things that that impress undergraduate men in colleges and universities. Good grades, a sociable personality, a good sense of humor, and an avoidance of both alcohol and tobacco are all great places to start.

College girls want to have a relationship with a man that has a chance to offer her something special for her life after graduating from college. Young adult men must give a girlfriend the impression that he will be able to be an outstanding father and an outstanding husband after graduation.

No one talks about the fact that most colleges and universities portray themselves as dating services for young adults. Most college freshmen are probably virgins who are seeking their first true love. God lives on campus so that the maximum number of students can graduate with a strong relationship.

It is much harder to meet a partner as a college graduate. Dating services are not that reliable in offering adults options in how to find a soulmate. However, God always tries to help us to find our soulmate. God always tries to find ways to coach us to impress our soulmate.

Our personality, our achievement, our ability to love a partner, and our ability to be loving parents must show to be very impressive for us in a dating relationship to continue into an engagement. God helps boyfriends and girlfriends to impress each other so much that they will wake up one day and will find each other engaged to be married.

God's Engagement Pressures

God loves the way that our boyfriends and girlfriends love each other. God loves it when the relationship between a boyfriend and a girlfriend intensifies. What does God do next for the boyfriend and girlfriend?

God puts pressure on both to become engaged. God wants the boyfriend to propose marriage to girlfriend. God wants them to turn the love that they have for each other into a loving marriage. God wants to groom the couple for achieving a successful parenthood. God wants their love for each other to exist in a marriage where both have achieved parenthood.

Couples must understand that the boyfriend/girlfriend relationship is a temporary relationship. The real relationship happens when a girlfriend and a boyfriend become engaged to be married because God pressures them to become engaged to be married.

God guides them to their preparations for their wedding day. God prepares them for their first attempts to give birth and to achieve parenthood. The God that exists in their lives helps them to understand the love that they have for each other.

God wants to be a part of the way that a husband and a wife will continue to love each other as well as in the way that they will continue to love their kids. Parents God's help to function as parents.

God and Sexual Intimacy

There comes a time when God must train young adults about how to engage in sexual intercourse. God must help virginal men and virginal women to understand what a pregnancy is and how to achieve a pregnancy.

Pornography is an offensive portrayal of how men and women to try engaging in sexual intercourse with the intent to work with God to achieve a pregnancy and a childbirth. It looks more like an exploitation of men and women than a training course for young adults that want to know how to work with God to create a new human life.

However, pornographic movies may give engaged couples the training that they need to begin to understand how to begin to engage in sexual intimacy with each other. What role does God play in helping young adults to understand sexual intimacy?

God trains all young adults and adults to perform sexually the right way. God's goal is not to give a loving couple a high that will end without a pregnancy. God's goal is to train his newly married husbands and wives to understand how to achieve a pregnancy and how to achieve a childbirth. God will not tolerate the exploitation of His Factory of Human Life. God's Factory of Human Life that exists in a woman is sacred to Him. God wants to punish anyone that abuses the mechanisms that He uses to create a new human life and to bring that new human life into the world.

God wants sexual intimacy to happen when a husband and wife want to have children. A relationship will fall apart if a couple persistently engages in sexual intimacy while rejecting their obligations to God to achieve a pregnancy and to achieve parenthood.

God always makes sure that He will do everything that He can so that His married couples will succeed in achieving parenthood through sexual intimacy that He will supervise.

Decisions About Intimacy

What happens if a husband has a lot of sexual intimacy and the wife is exhausted? What are their options?

They can go for a couple's massage. That experience may help the husband to release his excess sexual energy. It might help the wife to help her husband to release his sexual energy without becoming more exhausted.

A couple should use an ovulation predictor to understand the two to three days that are perfect to engage in sexual intercourse so that a woman will have the best chance of becoming pregnant if she and her husband should become sexually intimate during that period.

How do you teach a young adult kid about sexual intimacy if he or she is a virgin and has his first girlfriend or she has her first boyfriend? Do you buy textbooks? Do you buy pornography for them? Do you buy them sexually explicit magazines?

Why is it that no one can see an actual movie about a childbirth? We cannot see a baby coming out of a woman's body during childbirth. Why is that an offensive sight to see. Is pornography more offensive than seeing an actual childbirth?

A Mutual Effort

Raising and developing a family of children is a mutual effort between the parents of the children and God. God wants to develop children into adults that can produce children for Him in the future.

God guides a child's parents throughout the process of developing the child into a young adult. God gives parents advice. God gives parents guidance. God gives parents support. God can help parents to understand what has gone wrong with their children and how they can work together to fix the problem.

It very difficult to succeed as a parent without a consistent stream of help that will come from God. We are all God's children. God wants to work with parents to help them to develop his children. God wants to diagnose problems with children and to work with parents to work to try to solve those problems.

Developing children and young adults is a mutual effort between God, the Holy Spirit, parents, educators, siblings, and other family members. They all work together because God wants them to love His children and young adults. God wants to stop losing His kids to wrongful death and incarceration.

Humanity must work with God to replace our dying population with new babies that will light up our lives all over the world. We must honor God by bringing those of us that have been deceased back to life in our communities all over the world. We must work with God whenever we want to deal with a baby, a toddler, a child, and/or a young adult. That is our duty and obligation to God.

A Lifetime Commitment

Marriage and parenthood are both a lifetime commitment. God wants a wife and a husband to care for each other for the rest of their lives. God wants the loving intimacy between a husband and a wife to climax until they reach the miracle of pregnancy and childbirth.

Parents are responsible for the development of human life from the time that a son and/or daughter are infants to the time that they are adults. God wants parents to guide their sons and daughters through the various stages of human development such as a baby, toddler, child, young adult, and adult.

God wants the love between the family structures of parents, a husband, and a wife to be successful during all stages of the lifelong commitment of the development of human lives within the family unit. God wants a father and mother to bring joy to Humanity through the development of their children for their entire lives.

God wants to promote a successful marriage between a husband and wife. God wants a husband and wife to bring nothing but joy and happiness to one another's lives. God wants to be there to help a husband and wife that are struggling to function in their relationship guidance, assistance, and encouragement so that they relationship can succeed even through the worst suffering that they can experience in their lives.

All families depend on God to help them to exist. God works to develop the existence of all marriages. The family members must work with God to develop the family's children.

God, The Creator of All Human Life

The Joy of Infancy

God creates all human life in His Factory of Human Life inside of a woman's body. God always welcomes the opportunity to create and to develop a new human life to prepare it for childbirth. God loves to present His newborn child to his or her parents.

God is a silent force that works in the background of sexual activity between a father and a mother. God wants a father and mother to help Him to create and to develop human life. God wants all children to bring love and happiness into the world. God wants children to bring happiness into their parents' lives.

Infancy may be a new beginning for the souls of individuals that have betrayed God and Humanity in a previous life. God always wants to give us a second chance, or a third chance, or many chances to succeed in His Universe.

God loves babies. God loves to work with parents to teach babies how to be human beings. God loves to work with parents and other family members to develop that babies that He has created to be a loving part of our human family.

God compensates the suffering that we endure through natural deaths and wrongful deaths by introducing us to newborn human lives that do everything to bring joy and happiness into the world. Our mission is to bring love and happiness into the world by working with God to bring babies into our Human Communities all over the world.

God Creates All Nonhuman Life

Vegetables, fruits, and animal life are all part of God's efforts to create nonhuman life. God wants us to have nonhuman life at grasp so that we can eat and do other things like inventing engineering mechanisms.

We can see the Spirit of God when we look at a dog or a cat. We can see what God can accomplish when we look and a vegetable. We can understand that God is the most powerful biological engineer in the world. God designs every type of nonhuman life.

Most types of nonhuman living beings are compatible with our digestive system. Our digestive system can metabolize the nonhuman life that God provides for us. That goes for most fruits, vegetables, livestock, and seafood.

We see what God looks like when we see all animal and plant life. We see the magic that God has created in our Universe when we look at the trillions upon trillions upon trillions of plants and creatures that exist here on our planet.

Farmers take it for granted that God creates all nonhuman life. God creates their crops. He gives them their fruits and vegetables for free. God allows them to sell the fruits and vegetables that God has created on their farms. Do our farmers thank God for His gifts daily? We all must thank God for giving us access to His abundance of nonhuman life all over the world that will keep all of us alive.

God's Factory of Human Life

Every artist paints his visions on a canvas. A construction company must take thousands of components to build a home or a building. A chef must use different types of herbs and spices to make a meal taste exceptionally well.

God has a Factory of Human Life in the body of the woman that walks on the face of this Earth. God creates all human life inside the body of a woman who has succeeded in achieving a pregnancy by working with her male partner and with God during loving intimacy.

It is important to remember that God's' Factory of Human Life is a mechanism that God uses mainly for creating human life. Using this mechanism for any other purposes such as for prostitution, pornography, and/or sexual intercourse without the intent to conceive a human life can deeply hurt God.

There is no justification for hurting a woman by abusing her sexual organs for selfish pleasure. A man uses selfish pleasure when he tries to use birth control when having sexual intercourse with a female partner. Selfish pleasure is when a man convinces a woman to reject a new human life and to destroy it through an abortion procedure. Selfish pleasure is when a man that does not love a woman convinces her to agree to allow him to rape her.

God is very hurt and very annoyed when men and women disturb His Factory of Human Life. God will eventually punish whoever is responsible for abusing His ability to create life inside of His Factory of Human Life in a way that abuses a woman and that abuse Him.

The Holy Trinity

It is amazing that God cannot create human life solely himself. He needs help from a potential father and a potential mother to help Him to achieve the creation of a new human life.

Sexual intercourse that intends to create a human life is an effort of loving sexual intimacy that exists between God, the prospective father, and the prospective mother during sexual intercourse. It takes an enormous amount of energy for the God, the man, and the woman to be able to achieve a climax that will give God all the fluids that He will need inside of His Factory of Human Life to create a new human being.

We are all part of God. We cannot create a baby without working with a partner of the opposite gender and with God. God cannot create a new human life unless He will work with a man and a woman.

The sexual energy between God, a prospective father, and a prospective mother remains extremely intense until they hit the jackpot. The sexual energy subsides when a prospective mother finally becomes pregnant with a new child.

The ultimate intent of God is to develop a relationship between himself, a prospective father, and a prospective mother to achieve a pregnancy and a childbirth. It is the God's goal to achieve the happiness that awaits the mother and the father when God will be able to present them with their new son or daughter during childbirth. God, the father, and the mother will continue to work together after childbirth to continue to develop all the couple's children.

God's Primary Role

God's job is very complicated. We can summarize it in a simple sentence. God sees His role in His life to create all human and nonhuman life.

God gains joy and satisfaction when He is successful in working with the sexual intimacy of a mother and father to bring a wonderful human being into the world. That is what He seeks to accomplish. That is the main part of God's personality.

How many of us think about God during a pregnancy and during childbirth? Only God knows the answer to that question. However, we must work with the Power of God to properly develop our children and young adults the right way.

We do not want to develop our children to sink into a life of substance abuse, crime, pain, and suffering. God's roles in parent's lives work to try to prevent the corrupted development of our children and young adults. God wants to work with educators, behavioral health professionals, parents, and family members to do whatever is possible to stop the disintegration of our children and young adults.

God develops an individual relationship with all of us from the time that we are born to the time that He expects us to achieve parenthood. God does not just allow us to become substance abusers, to commit crimes, and/or resort to violence to solve problems.

We have a loving God that is there to help us. God is not there to hurt us. God wants to be a constructive part of our lives that will save our lives and the lives of our children when we are in trouble. God is always there to help us because He loves us. He wants us to succeed as children, young adults, and adults. God wants the love that we have for Him to make the world a better place for all of us.

What Is Loving Intimacy?

Loving intimacy is sexual intercourse in which God, a man, and a woman will work together to create the existence of a new human life. The energy of loving intimacy can be very difficult to tolerate for both the prospective father and for the prospective mother.

Loving intimacy in sexual intercourse will hopefully give God everything that He will need to create a pregnancy and to develop a new human life inside of His Factory of Human Life to prepare the baby to meet its proud and loving parents.

Loving intimacy is a way that a man and a woman can turn their passionate love for each other into child. God will recognize their love for each other. God will come to understand that the boyfriend and girlfriend are excellent candidates to achieve parenthood with Him and with each other.

God will stimulate them with sexual intimacy until they make a successful effort to achieve a pregnancy. God provides the sexual energy that a prospective father and a prospective mother will have when they need to give God what He needs to begin a pregnancy where God will create a human baby.

A husband and wife that are overwhelmed with sexual desire for each other do not always know that this energy comes from a loving God that wants them to achieve parenthood because of the love that the man and the woman have for each other in the relationship.

God Guides the Development of Life

God employs many people to work together to develop all human life. Parents feel the love of God when they must share that love with their children. God teaches children and parents how to love each other. Children and young adults must understand that they must respect the love that God and their parents have for them.

Parents must help their children and young adults to recognize the existence of God in their lives. Parents must help their kids to understand that prayer and communications with God are part of what it means to be a human being. Our kids and young adults must understand that all of us answer to Our One True God. Our kids and young adults will fail if they should come to ignore God and to injure God with our destructive behaviors.

Constructive discipline is part of the successful development of human life. We must be assertive and considerate when we help our kids and young adults to understand what they have done wrong and that they cannot continue to do what they have done wrong.

Discipline is about teaching our students about life. Discipline is about helping students. Discipline is not about injuring a student because he or she has done something wrong.

God disciplines adults in many ways. God works with adults in many ways. We must respond to the constructive discipline that comes from God and that comes from our family members and supervisors.

Constructive discipline is a very important way that God utilizes to develop human life.

What Is Bad Sexual Intimacy?

God really does not want to be a part of the sexual efforts of His adults or young adults that struggle to use birth control effectively. Women that are in sexual relationship hurt God when they plan to respond to a pregnancy by having an abortion. There are times when a birth control method will fail and the man and the woman will achieve a pregnancy. God feels hurt, humiliated, and violated when a couple wants nothing to do with a human child that He wants to create inside of His Factory of Human Life.

There is not connection with God when a person tries to impregnate another member of the same gender. There is no way that God can generate the energy to participate in the sexual activity of two adults of the same gender. This type of relationship will not produce children for Him. Sexual intimacy is God's way of creating and His way of developing human life.

How can a man give birth for God with another man? How can a woman give birth for God after getting pregnant through loving intimacy with another woman?

Can God tolerate this kind of thing? This is not a problem for heterosexuals. We cannot pass judgments on the lifestyles of homosexuals that exist in same gendered relationships.

Heterosexual have their own lives to live with their children and with God's guidance. However, God may be very upset over this situation. He has created sexually transmitted diseases. All of us must live a lifestyle that protects us from life-threatening sexually transmitted diseases.

God's Trains Us in Intimacy

First-Time Sexual Intimacy

There are many different reasons why a heterosexual young adult boy and a heterosexual young adult girl would want to have sexual intimacy for the first time.

A boyfriend and a girlfriend may have been dating for a long time. They might not be ready to become engaged or to become married. They then may choose to consummate the relationship. They might participate in a single sexual act that would confirm their devotion for each other.

What happens when a boyfriend and a girlfriend are engaged and both are virgins? Where do they go to get training about family planning issues that relate to with sexual activity?

God is responsible for all the training and guidance that first-time couples will get when they are either virgins or have started the process of becoming intimate. God wants them to be able to perform for Him so that they will be ready to become pregnant when that sexual energy between Him, the boyfriend, and the girlfriend become so intense that it will peak.

God tries to help His young adults to deal with the humiliation, anxieties, and fears that come along with becoming sexually active for the first time. God tries to coach His young adults. God tries to help them to engage in sexual activity the right way. God tries to stimulate them to engage in sexual intimacy the right way so that they will produce healthy and successful pregnancies.

Couples that get their sexual training from pornography can get the wrong idea about how God wants young adults and adults to behave during sexual intimacy. We think that making family planning movies that education our young adults to understand sexual intercourse properly in our goal.

Pregnancy and God's Help

God works to guide us to do what we should do achieve a successful pregnancy and childbirth. God wants all prospective parents to know everything that they must know to maximize the possibility that their pregnancy and childbirth will be successful.

God can coach a pregnant woman about how to eat well. God can guide her about how to drink healthy fluids. God can guide her about constructive exercise.

God would not want any pregnant woman to drink, to smoke, and/or to use illegal drugs. God would never want one of His pregnancy daughters to use any substances that would jeopardize the successful outcome of the pregnancy.

What do couples have to do to prepare for a newborn child? God can send a young couple to the mall on a shopping spree. God would help the father and mother to buy the crib, the toys, the hygiene supplies, the clothes, and the food.

Nutrition is so important for an expectant mother. Poor nutrition during a pregnancy increases the risk of birth defects and other problems after a childbirth. It is important for mothers to allow God to guide them so that a healthy diet will contribute to the overall success of the mother's pregnancy.

Massage Therapy

Massage therapy is a good way for couples to experiment with intimacy when neither of them have much training in intimacy at all. Massage therapists can show a man and a woman about how to love each other through erotic stimulation and through the fantasy that massage therapists work for God to help Him to teach a couple about how to get pregnant.

There are many benefits that couples can enjoy in massage therapy. Massage therapy can relax them. Massage therapy can make it easier for a boyfriend and a girlfriend to understand how to show constructive intimacy for each other. A husband and wife can get help from God and from massage therapists when they are struggling with infertility and failed attempts to achieve a successful pregnancy.

There are times when a husband and wife need a special type of therapy and counseling. It is embarrassing for a husband and wife to become pregnant in a massage center with special massage therapists. However, it is beneficial for a couple that is struggling to become pregnant to try this last resort type of therapy, a couple's massage, to help them to achieve a successful pregnancy.

A couple's massage can help the husband and wife to discover the love that they have for each other. They can feel completely relaxed and at ease with each other during the massage experience. They can forget about their worries. They can just concentrate on feeling love for each other and on coming ever so close to achieving the dream of producing a successful pregnancy.

Massage therapists want to help their clients to gain the capability to work with a member of the opposite gender to achieve the miracle of a pregnancy and of a successful childbirth.

God's Permission to Be Intimate

God knows what a husband and wife must do to achieve a successful pregnancy with one another. God understands the female menstrual cycle. God understands sexual intercourse. God understands conception. God understands a successful pregnancy.

God is responsible for taking full responsibility for guiding couples to become intimate in the right ways so that their efforts to achieve a pregnancy will be successful. God wants to do everything that He can to guide those adults that are desperate to achieve parenthood. God loves to be part of the efforts that a couple will make that will eventually allow God to bring new human lives into the world.

God secretly prepares our parents-to-be to achieve sexual intercourse at the right time in a woman's menstrual cycle to maximize the chance that God will be able to work with the couple to achieve a successful pregnancy. God does not want to waste the time of His prospective parents by coaching them to have sexual intercourse at the wrong time of the month so they will face another month of infertility and frustration.

God wants to be part of the decision that couple's will make about when it will be the right time to try to have a baby. God also must approve the decision of a husband and of a wife to begin the process of trying to have a baby. God will not cooperate with their efforts to work with Him to create a human life if He feels that the couple is making a mistake by doing so. We must get God's permission when we want to have a child through childbirth and if we want to have more children.

Training About Sexual Intercourse

We must work with God to train our young adults and adults about the mechanisms of sexual intercourse. There is nothing that is offensive about how God works with a husband and wife to create a human life. There is nothing that is offensive when our young adults try to study the anatomies of both the male reproductive system and the female reproductive system.

God does not want our young adults to get this training from pornographic movies. The way that women are exploited and abused in the movies can be disgraceful.

We must find more humane ways of training young adults and adults about the anatomy of the male and female reproductive systems. Young adults should have training in how a pregnancy happens. Our young adults should understand their options not only with birth control, but also with the suffering that God will suffer if the young adult aborts the pregnancy.

Our educators cannot just allow our young adults to get the training for how to engage in sexual intercourse from experiencing different levels of intimacy until we achieve the real climax of sexual intercourse. We cannot just allow our young adults to come to understand sexual intercourse because of the mutual molestation and foreplay that they will participate with one another.

It is better for our young adults to learn how to deal with the complexities of sexual activity in a humane environment such as a school. The couple does not benefit from learning about sexual intercourse through Russian-roulette and mutual experimentations with their sexuality.

God will help our young adults and adults to get the training that they will need to produce successful pregnancies and childbirths.

Understanding God's Role

All young adults and adults must understand that God plays an important role in their sexuality. We all answer to God when we contemplate in engaging in sexual activity at any age.

God is very interested in participating in the creation of at least one human life if a man and a woman want to experiment with sexual activity. God is very interested in working with a husband and wife to bring a new life into the world when He feels the intense passion of the love between both.

God will help a husband and wife to bring a new child into this world. God will help the new father and the new mother to begin to develop their new life.

However, what happens when they begin to use birth control without the intent to work with God to create a new human life? How does God feel about that situation?

A father does not understand that there are not many mothers out there in the world that can tolerate repeated efforts to engage in sexual intercourse without the intent to create a human life. Husbands and boyfriends can be angry about this. However, many men want to be sexual with their female partner out of exploitation than out of a need to bring a new human life into this world.

We have not really conducted studies to help us to understand the effect that birth control can have on causing the collapse of a marriage or of an intimate relationship when the couple attempts to be sexually active after childbirth with no intent to bring a new life into the world again.

Conclusion

Honoring God with Sexual Activity

Sexual activity honors God when a husband and wife share their love with God through sexual intimacy that is an effort to create a new human life and to bring that new human life into the world. God wants the loving intimacy that He experiences between a man and a woman to give Him to incentive and justification to make them pregnant and to work with them to bring a new human life into the world.

A father's and mother's sexual activity honors God on the day that they find out that their intimacy and their work with God has produces a successful pregnancy. A father and mother honor God when He can present them with their new son and/or daughter during childbirth. God wants to honor them for the way that they have honored Him for sharing a passion for each other that would give Him the honor of presenting a new human life to his or her parents on the baby's birthday.

Sexual passion between a father and a mother gives God every reason in the world to initiate a pregnancy. God wants the love that the father and mother have for each other to be a driving force for the way that the couple will work with God to develop His Human Creation.

We can honor God by waiting for the precisely the right moment to work with God and with our partner to try to achieve a pregnancy. We honor God with a promise that the father and mother will be together for the rest of their lives. It honors God when the father and mother make a commitment to continue to develop their children for the rest of the lives.

It also honors God when the passion that the father and mother have for each other will result in multiple childbirths.

God Is Part of Sexual Intimacy

God is a driving force behind sexual intimacy. He gives a man and a woman the intense energy that they will need to achieve passionate sexual intercourse and a successful pregnancy.

A man's reproductive system is part of his relationship with God. A woman's reproductive system is part of her relationship with God. A man's reproductive organs are supposed to work with God and with the female reproductive organs to help God to create a new human life within a man's relationship with a woman and within the couple's individual relationships with God.

God exists in every effort that a man and a woman make to exercise love and intimacy with each other. God makes decisions. Will the couple continue to exist if the man and the woman in the relationship continue to abuse birth control? Will the couple continue to exist if they feel the need to respond to a pregnancy by having an abortion?

How does God understand the purpose of sexual intimacy if it has nothing to do with creating human life between himself and the man and the woman that taunt Him by being intimate with each other? Maybe, couples do not understand the roles that God will always play in their sexual activities and in their sexual behaviors. God will punish us if he feels that we are disgracing our sexuality. God wants our sexual organs to be used in conjunction with Him to create human life.

The Joy of Childbirth

God cherishes the moment when He presents a newborn human being to his or her parents and to the world. Sexual intimacy between a father and a mother really and completely climaxes on the day that their baby boy or baby girl is born. They will hold the baby for the first time and will feel the love of God that creates all human and nonhuman life.

The greatest joy that we can offer to God is to agree to take a baby into our arms with a spouse and to agree to raise the baby for the rest of our lives. That is what Humanity's relationships with God are all about. We should understand that older people die all the time. God needs to compensate for those tragedies by bringing tens of millions of new human lives into Humanity every year.

God does not want our human family to be a dying human family. God wants our human family to be filled with tens of millions of babies and toddlers. God wants women to give birth to babies at least 30,000 times per second all over the world.

God wants our babies and toddlers to help us to solve our problems in the future. However, God needs dependable parents that consist of a father and mother that deeply love each other. They must deeply love God. They must want to do wonderful things for the Global Human Community by welcoming our infant brothers and infant sisters into the world with our spouse.

We all want to work with God to achieve the happiness of parenthood. God created us. God maintains our existence in His Universe. We are obligated to achieve parenthood to repay God for loving us so much that He would allow us to exist in His Universe. A childbirth benefits our entire human community all over the world.

We Must Stop Hurting God

God tries so hard to make our sexual experiences to be constructive and joyful for ourselves, our loved ones, and for God's Human Family. God does not want to punish us for sexual activity that offends Him. God does not want to face pain and suffering when He sees two young adults or two adults engaged in sexual activity that results in mutual sexual exploitation.

Nothing hurts God more than coming to a point where He will feel that He has no choice but to punish us for what He has determined to be our offensive sexual behaviors. We do not want to understand how much we are hurting God until we wake up and find ourselves being tortured by a sexually transmitted disease. We may have lost our children during a divorce. We may be in prison because of domestic violence. We may be in prison because of problems that are related to having sexual relations without wanting to conceive a human life during sexual intercourse.

Men do not understand about just how much birth control injures a female sexual partner. A woman's reproductive system can only take a certain amount of abuse before it will fall apart. The greatest tragedy, however, is when a woman is infected with a sexually transmitted disease because of the way that she offends God with her sexual behaviors.

Homosexual men do not understand that God cannot engage in sexual relations between two men. There is something about what they believe that they can do with one another that causes God to infect them with sexually transmitted diseases such as HIV. These diseases come from God.

We Must Achieve Parenthood

God wants us to achieve parenthood. It is our obligation to God to achieve parenthood. We must help God to increase the world's population. We must help God to replace those of us that leave us because of a natural death or a wrongful death. We must show love for God by showing love for our children and our spouse.

Are we selfish when we decide to reject our obligation to God to reject parenthood? We are all alive and we are all part of God's Human Family. The one thing that God would want more than anything else would be to ask us for in helping Him in His need to create and to develop human life.

Achieving parenthood is a beautiful experience. Loving children that God has put under our care for the rest of our lives is an honor for God and for all of us. It is a way that we can contribute to the overall development and maturation of the God's Human Family and God's Universe.

We do not have much to gain by experiencing loneliness in our lives. What kind of happiness can we achieve without a spouse and without children? Can same-gendered relationships bring someone the same happiness as a heterosexual relationship that exists between a man and a woman? Same-gendered marriages and same-gendered relationships do not promote or produce the ability to achieve a pregnancy.

We achieve a detachment from God when we are in a same-gendered relationship with no interest in pursuing parenthood. How can we explain this to young adults that are developing their attitudes about choosing their sexual orientation?

The reality is that our young adults have much more to gain by establishing a relationship that will allow them to achieve parenthood than to engage in a same-gendered relationship that will leave them without children for the rest of their lives.

Our Relationship with God

God loves all of us regardless whether we want to achieve parenthood. However, we have a much stronger relationship with God if our love for Him allows us to meet a lover of the opposite gender to generate the energy to work with God and our partner to create God's new human life.

We can talk to God about our family planning issues. God can help us to understand our family planning issues. We must always remember that God is a part of every family planning decision that we will make in our lifetime.

What are some of our family planning issues? How do we determine our sexual orientation? How do we escape the dangers of sexually transmitted diseases? When is it the best time to start dating? When is the best time to start to engage in sexual intimacy? What would birth control do for me. Is sexual intercourse during young adulthood worth the risk? When is the best age to become engaged to be married? Where do we find the training that will help us to understand sexual intercourse, conception, and a pregnancy?

Our young adults deserve access to the truth. All our young adults should think about these issues before making decisions about what they will adopt as their sexual orientation.
